Ensuring Healthy Aging Through Supportive Diets

As populations worldwide are aging, there are ways our society can help ensure a healthy, enjoyable, and sustainable lifestyle for older individuals. [ILSI](#) will [host a side event](#) on Monday, July 26 from 1:30 – 2:20 p.m. EDT during the UN Food Systems [Pre-Summit](#). A panel of experts will discuss nutrition, scientific cooperation and introducing more inclusivity of older populations to encourage greater health, mobility and cognition.

[This event](#) will host a dialogue about data collection to develop food that supports healthy aging, as well as the need for greater collaboration between the public and private sectors. Working together to provide more appropriate, sustainable diets for older populations can help achieve UN [Sustainable Development Goals](#) 3, 4, 9, 10, 12 and 17.

3 GOOD HEALTH
